

PROFESSIONAL SUMMARY

Computer Science and Computational Math double-major with a background in distilling structure from unstructured systems. I am particularly interested in using interdisciplinary thinking to combine quantitative reasoning and clear communication to solve real problems in live business environments.

EDUCATION

Combined Collegiate GPA: 3.1

Rochester Institute of Technology, Bachelor of Science (expected May 2027)

Computer Science and **Computational Math** (double major), **Chinese Language** (minor)

ASA DataFest 2025, 3rd Place, "Best Insights"

Relevant Coursework: Principles of Data Management, Research Studio, Intro to Artificial Intelligence, Analysis of Algorithms, Software Development and Problem Solving II, Information Retrieval, Database System Implementation (in progress), Advanced Chinese I (in progress)

Delaware Valley University, Concurrent / Accelerated College Enrollment (2019-Present)

Completed 51 credits in supplemental college coursework beginning at age 15

Relevant Coursework: Advanced Calculus, Coding for Data, Data Analytics, Digital Photography & Editing, Digital Video Production I & II, Macroeconomics, Physics I & II.

TECHNICAL SKILLS & CERTIFICATIONS

Programming: Python, SQL, Java, C#, C, R, JavaScript, HTML/CSS, JSON.

Data & Automation: Power Automate, Tableau, Forensic Toolkit (FTK), Oracle Database, MATLAB.

Software & Media: Adobe Creative Cloud (Premiere Pro specialist), Microsoft Office (Expert Excel), Google Workspace.

Professional Certifications: AccessData Certified Examiner (ACE); Global Career Accelerator Badges in AI, Data Viz (Intel), and Data Analysis.

PROFESSIONAL EXPERIENCE

Ivy Capital Partners, Dublin, Ireland | Data Analyst Intern

Sept - Nov 2025

Workflow Engineering: Designed and implemented an end-to-end automation workflow utilizing Power Automate and JSON to extract objectives from meeting summaries and trigger personalized client deliverables.

Systems Integrity: Managed data quality and volume constraints within a live business environment, ensuring high-accuracy automation for client-facing engagement pipelines.

Digital Growth: Spearheaded SEO and technical accessibility optimizations, resulting in a 33% increase in site traffic and improved user session duration.

Business Development: Co-led introductory and follow-up calls with prospective international firms; successfully transitioned early-stage conversations to strategic reviews with senior partners.

Reporter Magazine, RIT | IT Manager | Chief of Staff | Technology Editor **Aug 2023 - Current**

Leadership Evolution: Promoted through multiple levels of responsibility, starting as a Freelance Writer and advancing to senior leadership based on organizational impact and technical expertise.

Technical Infrastructure: Manage the magazine's digital roadmap and backend systems, driving a 120% increase in user engagement through optimized site performance and database management.

Organizational Restructuring: As Chief of Staff, stabilized personnel logistics and streamlined inter-departmental operations during a critical transition period.

Compliance & Auditing: Lead ongoing site-wide accessibility and SEO audits to ensure compliance with standards; coordinate technical displays for the Imagine RIT exhibition.
